

ANNUAL INMAN CHAMBER BENEFIT AUCTION

**JUNE 29 AT 1:30 PM
EAST PORCH OF INMAN
COMMUNITY BUILDING**

This year's recipient is

ELLIE MAE WEATHERS

Nine-year-old Ellie was born with a disease called Hirschsprungs that affects the large intestine and/or colon. Ellie's case is colonic, which means her entire colon was affected by the disease and was removed when she was 3-weeks old. She has had 30 surgeries and counting. In the fall of 2023, Ellie's G.I. and immune system crashed. She had a port placed in October and spent the majority of October - January in the hospital.

As her case progresses, doctors don't have a definitive answer on what her health may look like year-to-year. Through her ups and downs, Ellie is a strong, sweet, and funny little girl who doesn't want her illness to define her, in fact, she does everything she can not to let it slow her down.

Baskets and auction items can be donated by anyone and brought to People's Bank in Inman between now and June 28 at 5 p.m.
